Year 11 Progress Reports

Dear Parent/Carer

Your child's latest report has been issued today. The report is based on the work that students have completed during KS4. The Predicted Outcome Grades (POGs) in this report are teachers' predictions of what your child is most likely to achieve in their qualifications, based on their performance up to this point. However, they are exactly that, predictions.

Your child's final grades will be determined and issued by the exam boards based on the results of the final exams in May and June and the Non Exam Assessment that students have completed in some subjects. You can read about this in more detail [here](#).

Your child is being issued with an individual examination timetable this week and they will be asked to check this carefully to ensure that they have been entered for the correct subjects and for the correct tier (Higher or Foundation) in Maths, Science and Modern Foreign Languages.

KS4 Results Day is on Thursday 25th August. I will write to you later in the term with further details about this.

You can access the report through Go 4 Schools, If you have not accessed Go 4 Schools before, you will need to follow these instructions:

- Follow this [link](#)
- Enter your email address into the First Time User section. This need to be the same email address that we use to send you information.
- You will be sent a password and instructions about how to log on to the Go 4 Schools site.
- Once there, you will be able to access your child's report.

On the following page is a further explanation of your child's report.

If you wish to discuss progress in an individual subject area, please contact school and ask to speak your child's teacher. If you wish to discuss a matter connected to behaviour, attendance or welfare, please contact school and ask to talk your child's form teacher or Head of Year in the first instance.

Yours sincerely,

Mrs V Beeby
Deputy Headteacher

Minimum Outcome Grades (MOG)

These are the grades that other students with similar Key Stage Two results to your child achieve at the end of KS4 (when students take GCSEs).

These don't tend to change much throughout your child's time at Limehurst. Instead, the standard of work required to achieve the grade becomes harder as a child progresses through each year.

A MOG is the minimum grade we think your child should achieve at GCSE.

Predicted Outcome Grades (POG)

These are the grades your child's teachers think that your child are most likely to achieve at the end of Year 11, based on the rate of progress they are currently making.

- If the MOG and POG match, then your child is making good progress.
- If the POG is higher than the MOG then your child is making excellent progress.
- If the POG is lower than then MOG then your child is making less progress than we would expect.

Fine Grading

We divide each grade into three, to give an idea about how confident we are that your child will achieve that grade.

For example:

A student with a Grade 4- : your child's teacher thinks that your child should achieve a Grade 4, but they are close to missing out on this grade.

A student with a Grade 4: your child's teacher is confident that this grade should be achieved if your child continues to make their current rate of progress.

A student with Grade 4+: your child's teacher is confident that this grade should be achieved if your child continues to make their current rate of progress, but that they should be aiming to achieve a grade higher, in this case, Grade 5.

All grades are based on the new GCSE grading, as shown in the diagram below:

Old grades	New grades
A*	9
	8
A	7
B	6
	5 STRONG PASS
C	4 STANDARD PASS
D	3
E	2
F	1
G	1
U	U
