

7th October 2026

Dear Parent/Carer

Contrary to what you may have read on social media, Leicestershire Live or BBC News yesterday, no part of the school building was hit by a car on Monday, and there was never any threat to student safety by opening the school.

There was an incident at the school just before 6pm on Monday 5th October involving a single car. There was some damage done to a disabled access ramp, but not to any of the school buildings. The driver of the car, who was the sole occupant, walked away uninjured, and nobody else was hurt.

Emergency services attended the scene promptly, and the car was recovered later that evening. A thorough inspection determined that the school was safe to reopen as normal on Tuesday without any risk to students or staff, and the day passed without incident.

Yours sincerely

J Mellor
Headteacher
