

Dear Year 6 Students,

We are writing to you on what would have been one of your induction days here at Limehurst. We are really sad that you have been unable to spend some time at our school, but we hope that you have found the resources on the website useful and it has given you a taster on what school will be like for you in year 7. We will be adding more subject- based resources today.

You will have recently learnt which tutor group you have been placed into and who your form tutor will be. During the induction days you would have spent some time with your tutors so that they got to know you better. Although this has not been possible, we would still like to give you this opportunity. If you would like to, create a piece of work telling your tutor all about yourself. You could write a letter, produce a piece of artwork, record a short video or come up with your own idea. Some suggestions of what you could include are:

- Which primary school you are at
- Your favourite subjects
- Who is in your family
- Your hobbies and interests
- What you enjoy to do in your spare time
- What you are most looking forward to at Limehurst
- Any concerns you might have.

When you have finished your piece of work please send it, or photograph and send it, to [transition@limehurst.org.uk](mailto:transition@limehurst.org.uk) and we will pass it on to your tutor. Alternatively, you could bring it with you on your first day at Limehurst. Your form tutors are looking forward to seeing your fantastic creations.

We will write to you in due to course to let you know about our plans for reopening in the Autumn term.

Kind regards,

*G Robinson*

Graham Robinson

Head of Year 7
